

REMARKS

Claims 1-14 are the only claims pending. Original claims 3-9 have been amended to eliminate informal "use of" terminology and multiple ranges, to reduce filing fees by eliminating multiple dependency and to provide minor clarification. Original claim 10 was obviously incomplete. It has been amended to add the dyes of original claim 2 and the viscosity limits of claim 1. This is supported by the paragraph bridging pages 34-35 of the specification as filed.

The newly added claims are supported by originally filed claims 3-5 and 9. No new matter has been added.

Applicants aver that the claims are now in better form for examination. An Action on the merits of the claims is respectfully awaited. In the event that minor amendments will further prosecution, applicants request that the examiner contact the undersigned representative.

Respectfully submitted,
